Dear Ms. Henney,

I am writing in in reference to Docket 99P-0033/CP 1. I am hoping that you will favorably consider the Humane Farming Association's petition requesting an end to the practice of feeding dead animals or animal products to other farm animals. This practice presents and unnatural situation for these animals, particularly cows which are NOT carnivorous, and an unhealthy situation for humans.

Thank you for your consideration of this matter.

Sincerely,

Holly J. Wells
